Grade-er-Blade

GR800

Turn Your Skid Steer Into A Road Grader

This low cost attachment turns your skid steer into a road grader. Level, grade, road reshouldering, gravel reclaiming, sub-grade/blacktop preparation, road resurfacing, road building. Looking for a small road grader? Can't find one? Too old? Too expensive? Road grader too difficult to transport to job site? Here's your problem solver!

\$ A Real Money Maker \$

Whether you're a contractor, landscaper, home builder or a rental yard. Here's your grading answer. Why contract out for your grading needs when you can bring your project in ahead of schedule and under budget.

Grading/Blading Is An Important Job Site Operation

Hang on blades just don't cut it. Ever ask yourself the question if there is a better way? We all know how difficult hang on blades can be to operate! Cutting too deep, not deep enough, bounce, bounce bounce in hard ground leaving the job site in worse condition than when you started? Are your grade needs leaving you with washboard roads? Well here's your answer!

Easy To Operate!

You're in total control with this easy to operate grading machine. Finger tip hydraulic control lets you precisely set tilt and trim.

Time Saver Equipment By **NORTEC**

On Demand Hydraulics Smooth, easy to operate hydraulics takes the work and fatigue out of your grading operation. Sick of pulling pins on your hang on blade to make adjustments? Or worse yet, NO adjustments. On Demand Hydraulics offers tilt, angle and trim.

Turn Your Skid Steer Into A Road Grader

Your operator already understands how to operate your skid steer. This easy to operate grader attachment makes you an expert operator.

EXCLUSIVE Moldboard End Plates

This important feature increases productivity. End plates keep the material in the length of the moldboard.

Laser Ready Standard Equipment

Put a Laser on your machine and the operator becomes an instant grade checker. Increase machine productivity and accuracy. Simplify your grading and excavating operations. Reduce labor and wasted downtime waiting on grade checks. Save material with improved accuracy.
